

K240 Studio

PROFESSIONAL STUDIO HEADPHONES

AKG[®]
by HARMAN

HIGHLIGHTS ■

Over-Ear Design

Comfort for long working sessions

Semi-Open Technology

Solid bass and clear highs

Patented Varimotion 30 mm XXL Transducer

Accurate signal transfer and great dynamic range

Self-Adjusting Headband

Provides optimum fit every time

The AKG K240 Studio over-ear, semi-open headphones are designed for professional applications such as mixing, mastering and playback. Their advanced 30 mm XXL transducers with patented Varimotion diaphragms deliver a wide dynamic range, increased sensitivity and high sound levels, while their semi-open design provides a solid bass range and extremely clear highs. With impressive accuracy, musicians, producers and engineers rely on the AKG K240 Studio to clearly hear mixing details, which has made these headphones a standard in recording settings.

In addition to great sound quality, the headphones are extremely durable and comfortable. Not only built to withstand the demands of countless hours in the studio, their self-adjusting headband provides an ideal fit and their over-ear pads nicely envelop the ears. The AKG K240 Studio headphones also feature a professional mini XLR connector and come with a 3 meter cable and convertible jack plug for connecting portable equipment easily. Altogether, from performance and ease of use to comfort and reliability, the AKG K240 Studio is a powerful tool for production environments.

KEY MESSAGES ■

Hear the Details

Take your recording, mixing, editing and mastering to the next level with the AKG K240 Studio headphones. Designed to enhance production, these headphones deliver the solid bass range, crystal clear highs and accuracy needed for the studio.

Produce in Comfort

Built for those long recording sessions, the AKG K240 Studio headphones provide an ideal fit. With their self-adjusting headband and over-ear pads, these cans allow musicians, producers and engineers to spend studio time in comfort.

A Studio Legend

The original AKG K240 became one of the most widely used headphones for professional recording due to their exceptional sound quality.

Performance on the Go

Take your professional sound quality anywhere you go. In addition to providing great sound for recording and mixing applications, the AKG K240 Studio headphones can connect to portable devices with its convertible jack plug and 3 meter cable.
