RESUME

MICROPHONE ARM, TOP ARM, WITH ON-AIR INDICATOR

Articulated microphone arm with innovative design and high visual impact. The microphone support line TOP ARM was made with fluid design that can harmonize with any work environment providing ergonomic, practicality, safety and durability, causing a great visual impact in the studio.

Has injected joints in high mechanical resistance material, aluminum body tube with exclusive design and anodized treatment, spring and support cable incorporated inside the product and is already provided with a high quality audio cable.

To create a more practical and secure environment, was included a LED indicator on its end that indicates to the user that the microphone is "open" or in use. This indicator has a great luminosity even in very bright environments with a very low current consumption (<40mA) and can be powered with tensions that may vary between 3.5V and 25V without any change on the LEDs luminosity. The product has 3 different sizes: 20" (50cm), 32" (80cm) and 40" (100cm) of length and three different colors: Gold, Silver and Black.

Besides the color options, there are two different fixing options. Bushing that allow to install the stand in any mobile position, however, require drilling for installation. Clamp allows the installation without the need of drilling, but it can not be installed in central positions, only on the ends. The TOP ARM supports microphones up to 4,4 lbs (2kg) and has smooth joints and precise that allow the ideal positioning of the microphone in a very easy and fast way without noises.

TECHNICAL CHARACTERISTICS

- Built with aluminum tubes with anodized finish in 2 different colors: silver and black;
 - Injected pieces in high mechanical strength polyamide;
 - Springs and pressure system with steel cable mounted inside the product;
 - Pressure adjustment of the springs to support microphones up to 4,4 lbs (2kg);
 - High quality and exclusive audio cables with individually shielded incorporated to the product;
 - 3 different sizes: 19,68" (50cm), 31,49" (80cm) and 39,37" (100cm);
 - Different assembly possibilities and many working angles;
 - Fluid, ergonomic and modern, drawn in a renowned professional studio design;
 - Top quality and high durability parts;
 - "ON AIR" Microphone indicator with high brightness LED that is able to work with voltages among 3.5 to 24V with only 40mA;
 - Future expansion of the accessory line with 100% compatibility;
 - 4 different models of mounting bases: Bushing, Table Clamp, Table Mount, Table Trough Mount.
- * For ON AIR indicator, the audio console must be prepared for this feature through a GPO or output relay.*

	DIMENSIONS: (WxHxD)	WEIGHT	VOLUME
20"	42,5" x 2,75" 9,8" (1080 mm x 70 mm x 250 mm)	- 1,82 lb without package - 3,41 lb with package	0,0189m ³
32"	42,5" x 2,75" 9,8" (1080 mm x 70 mm x 250 mm)	- 2,2 lb without package - 4 lb with package	0,0189m ³
40"	48,8" x 2,75" x 10,6" (1240 mm x 70 mm x 270 mm)	- 2,79 lb without package - 4,96 lb with package	0,02343m ³
